Overall

Two or three sentences in the professor's voice: what this paper does well, and the one thing keeping it out of the A range.

Score by category

Category	Weight	Score	Note
Problem definition	15%	88	One line on what earned or cost points here.

Fix these first

1. Highest-impact fix, stated as an instruction.
2. Second one.
3. Third one.

What needs fixing

Costing you a letter grade

Section 4, p. 9 — The recommendation is asserted rather than sized.

“The Portuguese market presents significant opportunity for expansion.”

Costs points under: Evidence and quantification (20% of grade)

Fix: Add the addressable market figure from your Exhibit 2 and state the revenue assumption behind it.

Individual assignments

Each person's items, based on the sections they wrote.

Dana Ellsworth

Sections: Risk Mitigation, Appendix B

Costing you points

Risk Mitigation, p. 11 — Risk named without a mitigation.

“Regulatory risk remains a concern.”

Costs points under: Risk and alternatives (10%)

Fix: Pair each risk with a specific response and an owner.

Task list

[] Add mitigations for the three named risks. (45 min)

Theo Marchetti

Sections: Financial Projections

Task list

[] Recheck the NPV table against the assumptions in Section 3.

Whole-team items

Nobody owns these individually, which is why they get missed.

[] Executive summary recommends a joint venture; Section 5 recommends direct entry.
